

**«We must not be afraid of the
good senses that make our life better»**

On behalf of the association and in person, I wish you a happy new year, a feast of miracles. For every emotional charge of this day remains so strong the same for life. There are those who do miracles and those who are waiting for miracles. But, unfortunately, there is a tertium genus that cannot dream for

miracles, because of their despair is so big. And the number of those who have afraid of dreaming too grows, because their despair grows more and more. They are silent about the truth. Since there is a category of people who kill for the desire to live without those who sow chaos and hate.

The ONLUS Association "Art Coupe", of which I am founder, supports the culture of being informed and at every event takes place information on the situation in Ukraine, where I was born. The fire of war is advancing more and more in the world. I write about Ukraine. Besides many causes and consequences, it is a neo-Nazi war, descendants of the accomplices of the Nazis in the Second World War, on which we celebrate the victory so as not to forget it. This is what joints everyone. 2019 brings us to the fifth anniversary of the triumph of the neo-Nazis of the ukrobanderi movement, known for its cruelty in the principle, manifested from generation to generation. When Ivan the Terrible sent to peripheric lands (ocraïne) for inadequate behaviour, banditry and renunciation of Orthodoxy, as you see, he did the right thing. The word Ukraina derived from the word ocraïna, that is a land of the Russian borders. The knowledge of the past gets easier to understand the present and easier to repeat the victory over those who once were convicted in the Nuremberg trial.

As part of the "Marathon of Truth" project, all people of good will are invited to discuss the topic "There is still time to prevent the entirety of the Third World War". The relevance of this theme confirms the increase of the points of fire on the planet. In addition to terrorism, neo-Nazism is gaining momentum, evident in face of new generations of ukrobanderi formations, once overtaken by their mentors, the World War II Nazis.

The topic "There is still time ..." is relevant and is proposed to be taken into consideration by all the main representatives of the world community.
